**ELEMENT
S**

I. LOGO

PRIMARY LOGO

The German European School of Manila logo is the primary element of our visual identity and should appear on all communications.

The logo is made up of two elements:

1. Symbol
2. Wordmark

Always ensure that the logo is reproduced at a legible size.

LOGO COLOURS

Pantone Yellow C

CMYK C:3 / M:9 / Y:100 / K:0

RGB R:251 / G:220 / B:0

HEX #fbdc00

Pantone Reflex Blue C

CMYK C:100 / M:93 / Y:14 / K:12

RGB R:0 / G:22 / B:137

HEX #001689

The logo should always be reproduced in its original form — meaning no tints or shades may be derived from it, nor may multiply or overlay effects be applied to it.

When possible, it should be printed using the Pantone Matching System value. If spot colours are not available, only the CMYK (Cyan, Magenta, Yellow, Black) values listed on this page should be used.

The official colours to be used for reproducing the logo in Pantone, process (CMYK), RGB (Red, Green, Blue), and web-safe applications (HEX) are as shown.

PRIMARY LOGO CLEAR SPACE & MINIMUM SIZE

The logo is always scaled as a unit.
The logo should never appear less than 1 inch in height.

PROTECTED SPACE

There should be a minimum clear space around the logo in which no other elements (eg: graphics, illustrations, photos) can appear.

Note how the height of the "G" in the "German European School Manila" wordmark is the unit of measurement that dictates the correct logo configuration and safe area.

MINIMUM SIZE

A minimum allowable size has been established to ensure legibility of the logo in which the height of the logo is no less than 1 inch.

PRIMARY LOGO COLOUR OPTIONS

FULL-COLOUR VERSION
Available as CMYK version AND
Two-colour Pantone version

ONE-COLOUR VERSION
Pantone Reflex Blue C

BLACK VERSION

The black version is for use in black and white applications.

REVERSE VERSION

A reverse version for use on dark coloured backgrounds has also been created. The logo may be printed on any solid colour, texture or photographic background that provides sufficient contrast

FULL-COLOUR VERSION

The full-colour logo is the preferred version and should be used whenever possible.

ONE-COLOUR VERSION

A one-colour version of the logo has been developed for occasions when the School needs to produce a one-colour print job. The logo may be printed on any solid colour, texture or photographic background that provides sufficient contrast

INCORRECT LOGO USAGE

Do not change the typeface in the logo.

Do not alter the colours of the crest or wordmark.

Do not alter or scale logo elements.

Do not disassemble, remove or rearrange elements of the logo.

Do not tilt the orientation of the logo.

Do not stretch or compress the logo.

Do not display the Symbol without the Wordmark.

Do not screen or apply transparencies.

Do not use on a distracting background.

Do not outline the logo.

The GERMAN EUROPEAN SCHOOL MANILA Logo must be accurately reproduced. All logos were created as single, unified graphics. Everything about them—their size, placement spacing, color and proportions—is intentional, and should be applied correctly in all instances.

Do not screen or apply transparencies.

Do not alter the colours of the crest or wordmark.

Do not use the logo over busy photographs.

SECONDARY LOGOS

SECONDARY LOGO – HORIZONTAL

SECONDARY LOGO – VERTICAL

There are two secondary logo versions, including a vertical (stacked) version and a horizontal (one line) version.

In instances where the space provided is too small for the primary logo to be legible, or in special occasions when the use of the primary logo would be unsuitable, please use one of the secondary logos.

Whenever possible, the logo should appear in its full-colour version. The correct usage guide for the primary logo applies to the secondary logos as well.

MONOGRAM

Full color Monogram Versions

One color Monogram & Reverse Versions

The monogram has many uses. It can be used for sections, programmes and in place of the logo for merchandise, clothing, pens and mugs. These can also be used for student campaigns and other communications for a more youthful look.

Pantone Yellow C

CMYK C:3 / M:9 / Y:100 / K:0
RGB R:251 / G:220 / B:0
HEX #fdbc00

Pantone Reflex Blue C

HEX #ffcd00

PANTONE 300 C

CMYK C:100 / M:62 / Y:7 / K:0

RGB R:0 / G:92 / B:185

HEX #005cb9

When using the monogram in conjunction with the name of a section, programme, department, unit, or centre (thereby referred to as the 'unit name'), the unit name should always appear TO THE RIGHT of the monogram.

The first line of the unit name should be rendered in Montserrat Light font while the second line will be rendered in Montserrat Black font. The unit name should not exceed the height of the monogram.

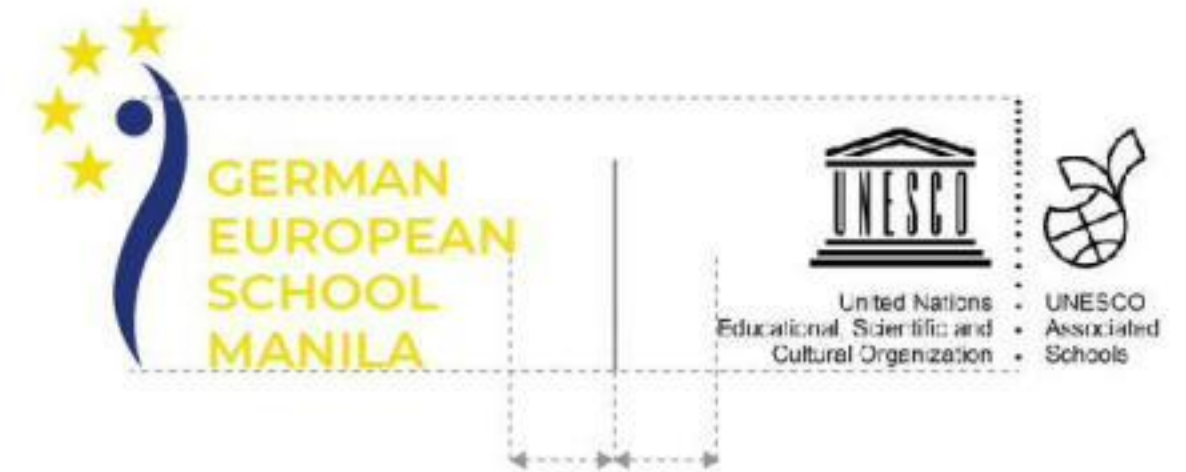

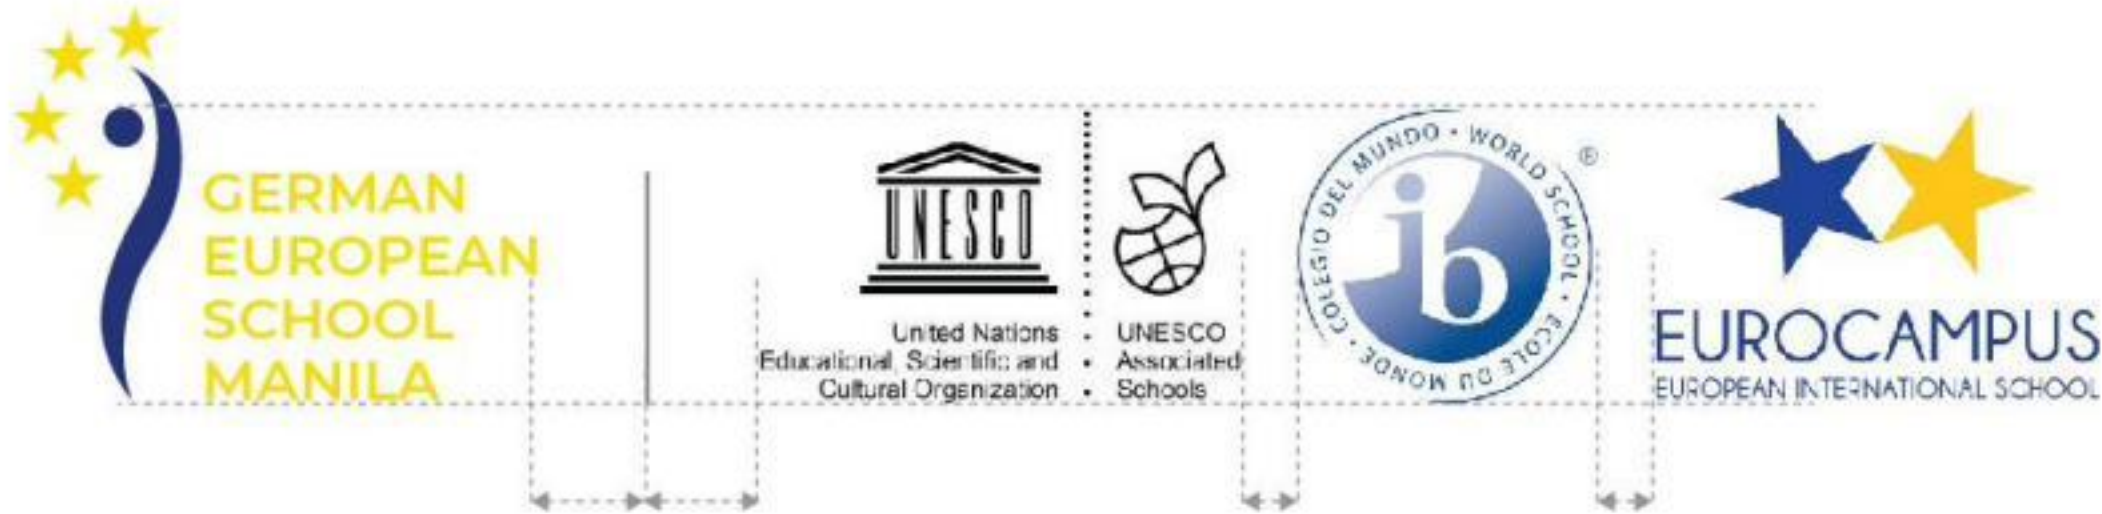

The different sections shall be color coded for differentiation. Follow the color formulas in the example above.

LOGO LOCKUPS

When using the primary logo in conjunction with the section logo, a logo lockup should be followed. The primary logo should be placed at the left and the section logo at the right. These will be separated by a divider. Lockups can be used in headers, footers, email signatures and other official documents and communications.

PARTNER LOGO LOCKUPS

When using the primary logo together with official partner logos, a logo lockup should also be followed. The primary logo should be placed at the left and the partner logo at the right. These will be separated by a divider and the space should be uniform in between logos. Lockups can be used in headers, footers, email signatures and other official documents and communications.

Whenever possible, use the **Primary Colour Palette** as foundational elements within your communications and promotional material. It is acceptable to use tints (shades) of the primary colours to add variety and visual interest to the materials.

The **Secondary Colour Palette** is designed to support and complement the Primary Colour Palette. However, depending on the purpose or tonality of the material, these colours may be used independent of the Primary Colour Palette.

These colours enable flexibility and variety in design. Variety also ensures that our materials are dynamic and up to date.

COLOR PAIRING TECHNIQUES - 2 COLORS

Picking two opposing, vibrant colours will create a powerful, high contrast and eye-catching effect. This can be great for small banner ads or communications that need an extra zing.

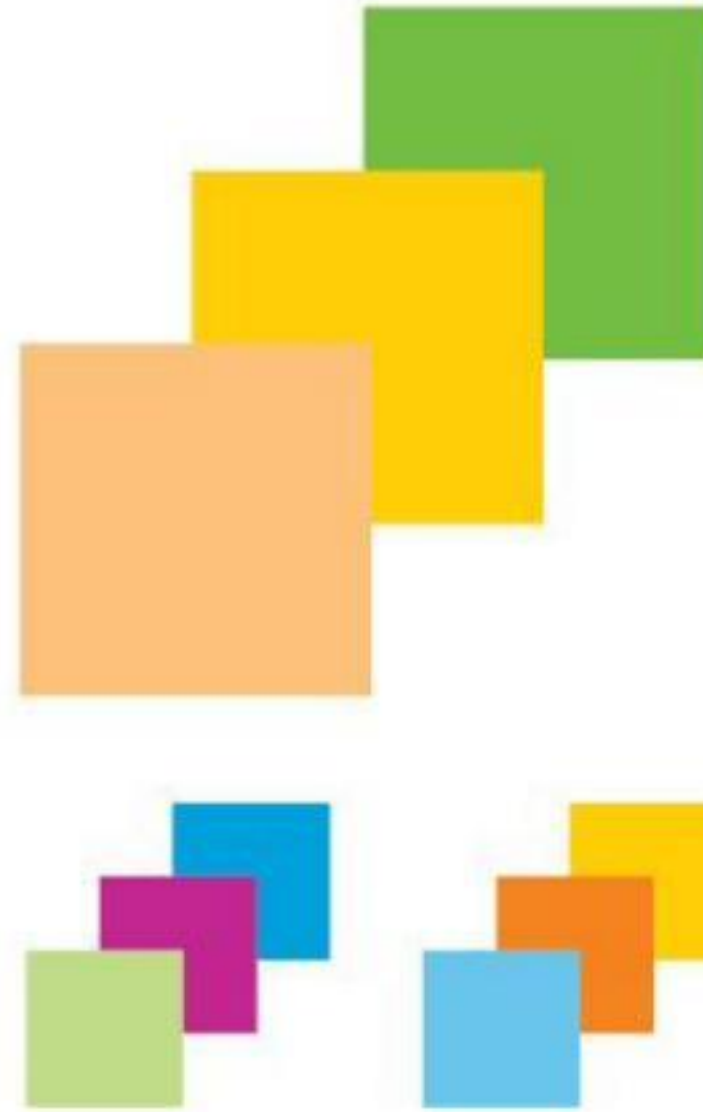

Combining a dark colour with a light colour also creates contrast. In this combo, we like how the flatness of both colours create a subtle and sophisticated feel.

Colours from the same hue can also work well to create a more subtle effect, that is perfect for corporate oriented communications.

COLOR PAIRING TECHNIQUES - 3 COLORS

Pairing two harmonious colours from the same hue with a bright contrasting pop colour can create interest and focus for your communication.

Anchoring two vibrant, contrasting colours with a flat colour is a great way to grab attention and mitigate the tiring nature of vibrant combos.

You can use three colours from the same hue for a subtle but complex effect.

COLOR PAIRING TECHNIQUES - GRADIENT

VIBRANT COLOR BLENDING

LIGHT AND DARK COLOR BLENDING

SIMILAR COLOR BLENDING

When creating gradients, follow the 2 color pairing rule. Gradients can be used as backgrounds, fills and tints for photographs.

Great brands use type effectively. Often seeing only the typography and brand elements is enough to successfully identify the organization or product being promoted. By being consistent with the typefaces, we communicate our brand more effectively and help it stand out in a competitive marketplace.

Always have consistent letter spacing (the space between the letters) when setting headlines, subheads or body copy. Lower case letters, with their ascenders and descenders, make it easy for the eye to process word formations.

Reserve capital letters for headlines if necessary - certainly never use in body copy. Always use unjustified text (ranged left)

**ELEMENT
S**

IV. IMAGERY

PHOTOGRAPHY

CAMPUS

All photography used marketing and communications should be professionally produced. All imagery should be crisp, clean, vibrant, and contemporary.

Whether capturing exterior or interior shots, it is essential that all photography conveys a sense of authenticity and portrays a genuine school experience.

STUDENTS & FACULTY

Any posed photographs should feel relaxed and comfortable, never forced or stiff.

CAMPUS

Campus photography should include beauty shots depicting the campus as a vibrant, world-class facility.

REAL MOMENTS

STUDENTS & FACULTY

Any photograph depicting students and faculty should capture an authentic sense of the diversity present on campus.

REAL MOMENTS

All photography capturing University events or activities should be candid in

CULTURE

order to accurately portray the lively atmosphere on campus.

CULTURE

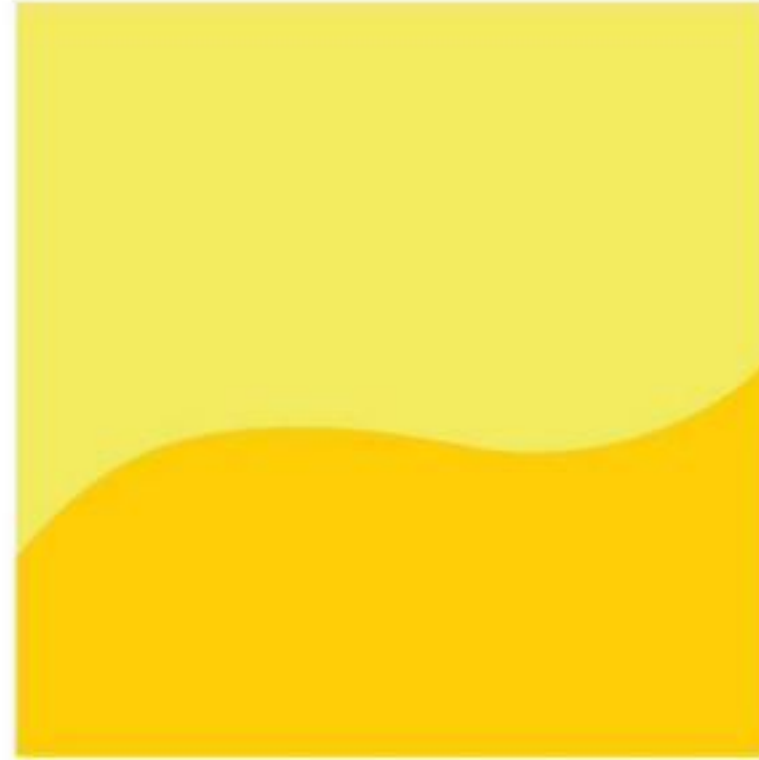

Imagery depicting life on campus should capture authentic moments, and paint a realistic vision of what learning at GESM is all about.

GRAPHIC ELEMENTS

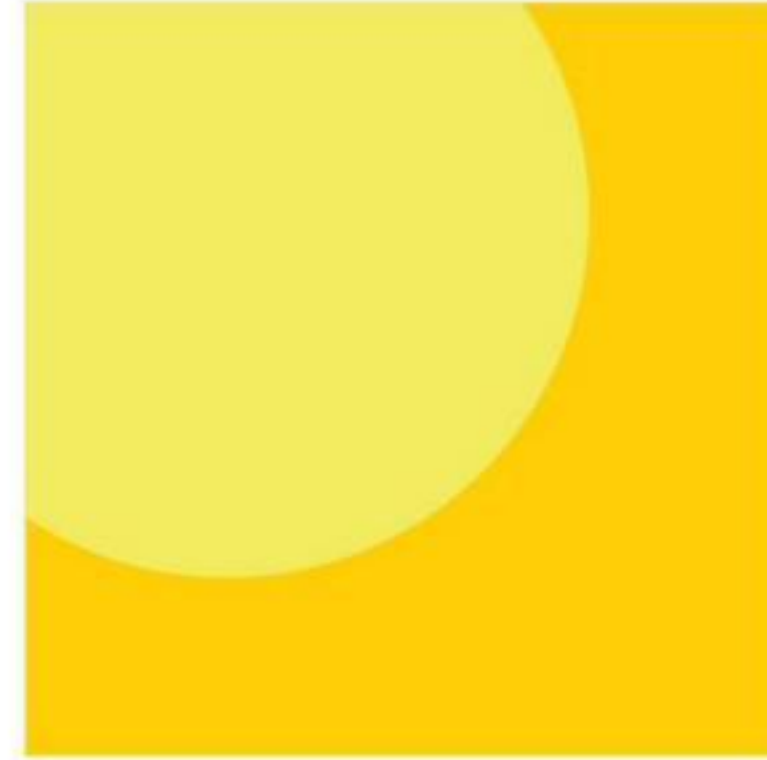

STAR

WAVE

CIRCLE

GESM has three types of **Graphic Elements**. These are the **Star**, **Circle** and the **Wave**. These are derived from the GESM logo and serves as its visual mnemonic. It is a canvas on which the school's visual identity can be expressed.

While these share many aesthetic similarities, with the logo, their purposes are quite distinct. Examples of how these elements can be used are found at the latter part of the visual identity guide.

The **Star**, **Circle** and **Wave** are versatile brand elements. When implemented correctly it adds movement, dynamism and purpose to a communication.

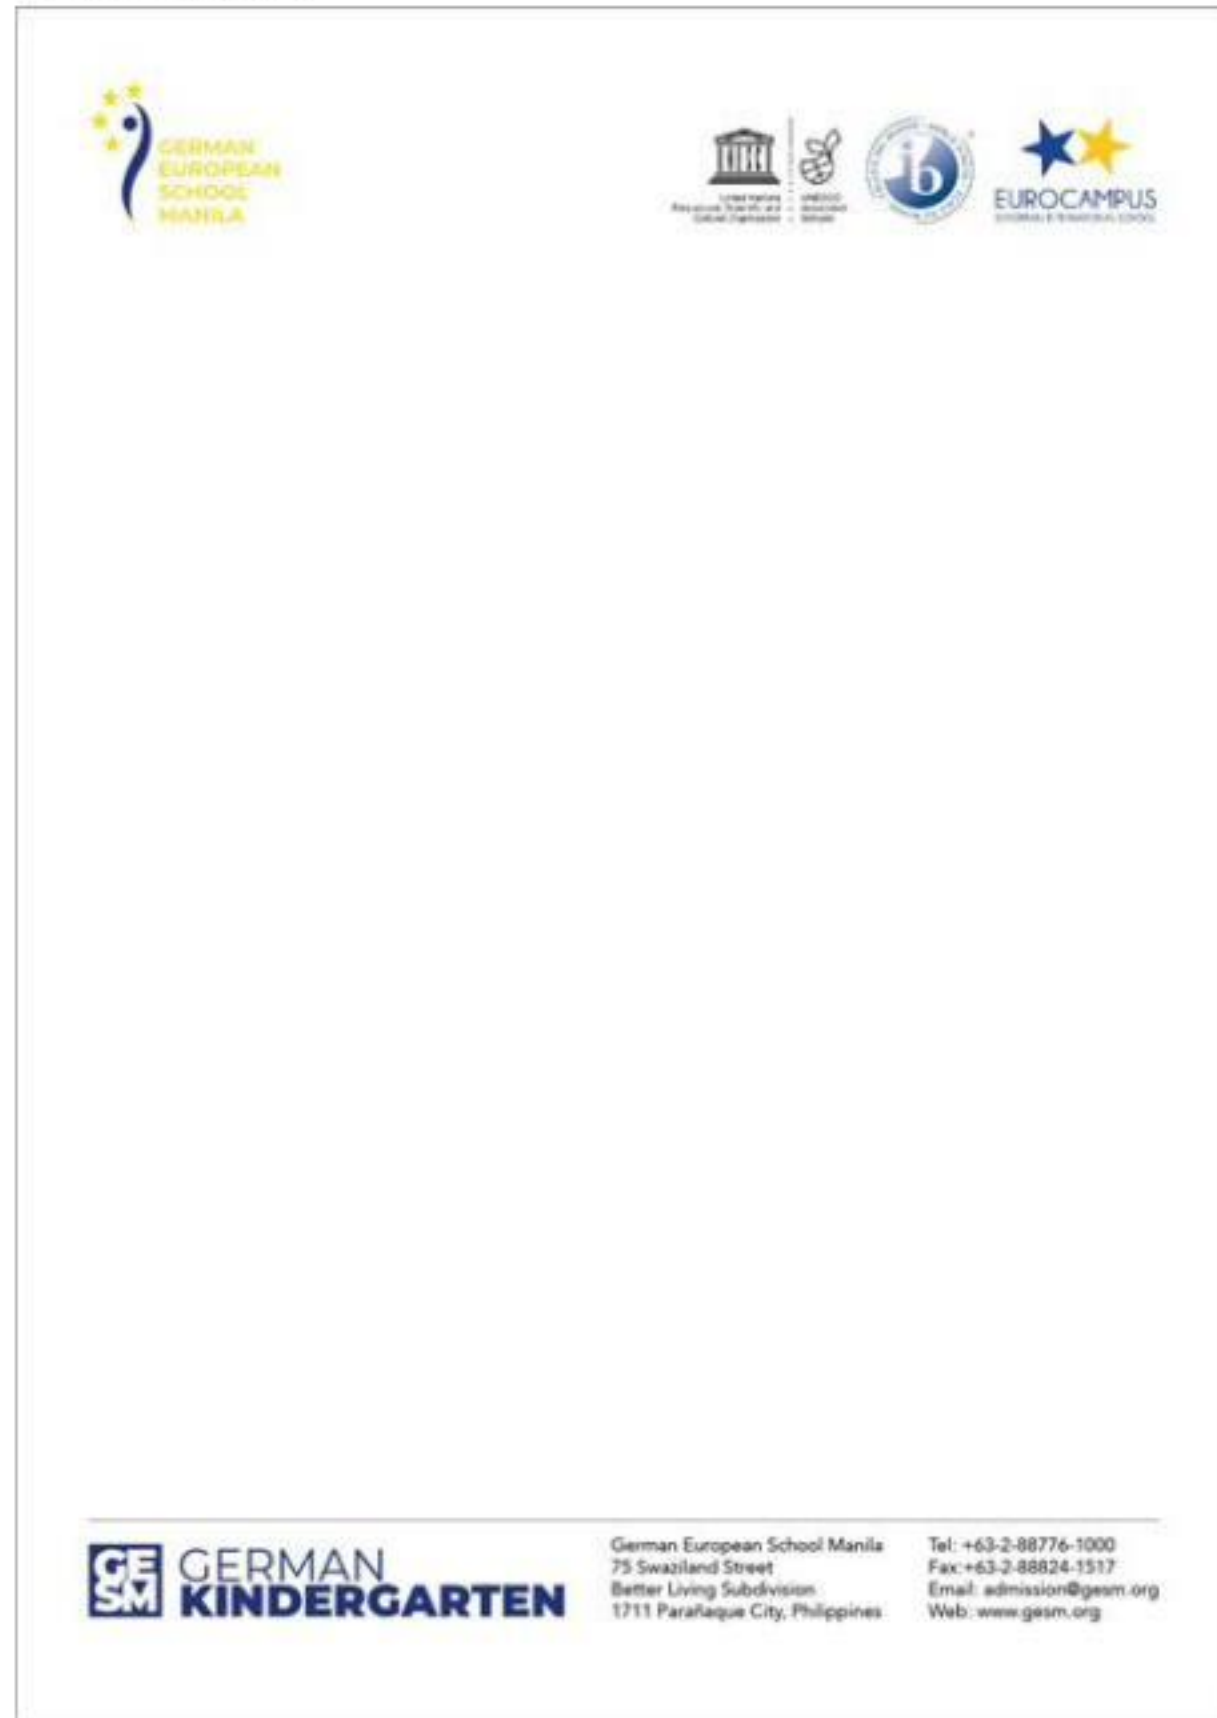

The abstract illustration style is representative of our school principles, and together with the primary logo will become instantly recognizable as the school branding.

I. STATIONERY

LETTERHEAD & ENVELOPE

LETTERHEAD

ENVELOPE

The number 10 envelope is designed to maintain the desired clean, modern, and professional look.

CARD

On the letterhead, the primary logo is located on the top left and the partner logos are located on the top right.

The department name, mailing address, telephone and facsimile numbers, email and website addresses are listed in the bottom right section of the letterhead.

The stationery system is designed to give all GESM communications a clean, modern, and professional look. The basic stationery system consists of an A4 size letterhead, 3.5" x 2" business card, and #10 envelope.

CALLING CARD

The business card specifications are set to help create and maintain the desired clean, modern, and professional look. A Pantone bar that bleeds off the top, is added to the card for emphasis and graphic interest.

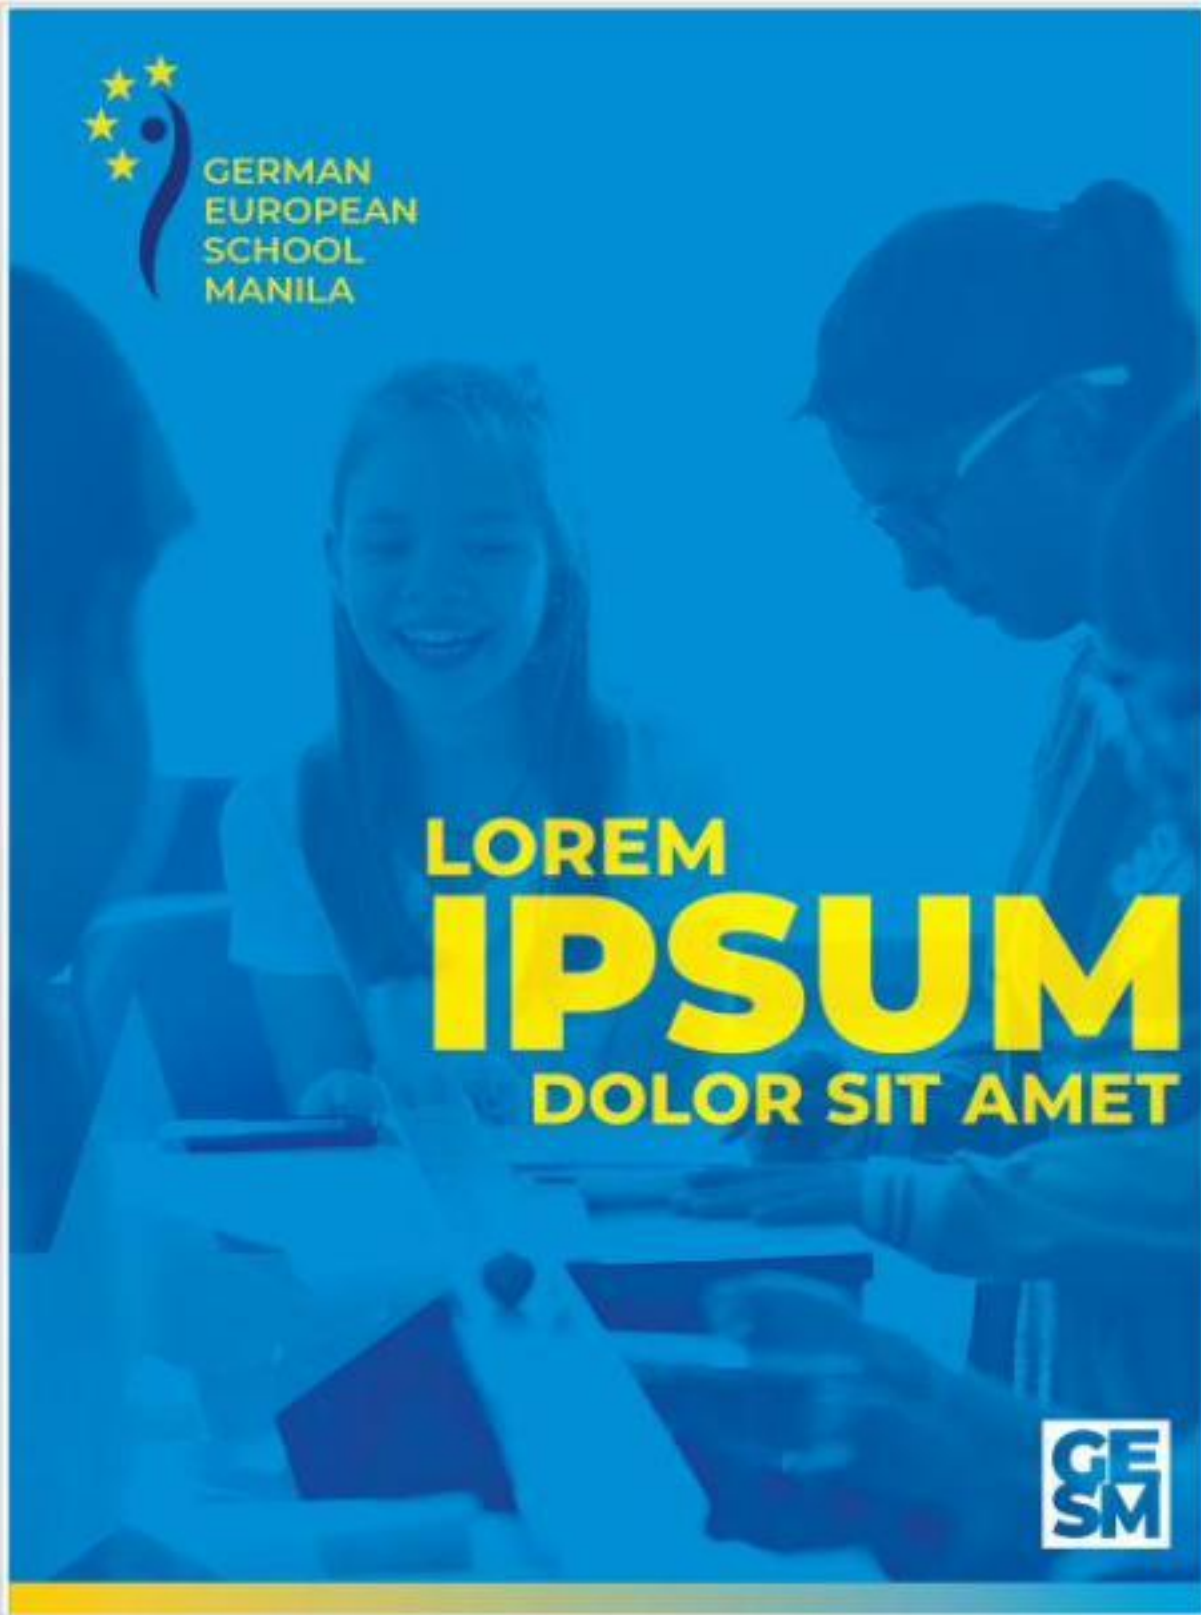

The section is indicated via the logo and color. (Refer to page 14)

Learning in the New Normal

Body Copy

Your child's continuous education during these challenging times is essential now more than ever. Our modern international curriculum in German and English, prepares your child to see and understand the world better. Our online platform assures you that learning never stops at our school. Together we can continue your child's development as we build a more resilient future for them.

Call to action:

Enquire now! Our German and International Sections are now open for enrollment. Visit our website at www.gesm.org or send your inquiries to gesmsecretariat@gesm.org.
