HOME  GROWN

BRAND STRATEGY

CORE CUSTOMER SEGMENTATION

BEHAVIOR

- Enjoys healthy lifestyle such as, going to the gym, doing Yoga, and exercises
- Loves to cook and occasionally experiments with new ingredients and recipes
- Enjoy social activities
- Shops online
- Uses and frequent social media channels as well as reading online and offline articles

VALUES, ATTITUDES, AND LIFESTYLES

- Morally correct - against animal cruelty etc...
- Takes good care of themselves and wants to take care of close ones
- Willing to work hard as long as believes in the purpose of working hard

DEMOGRAPHICS

- 23 to 40 years old
- Majority women
- Living either in an apartment in the city or a house with yard in the suburbs
- Employed with stable income

NEEDS AND MOTIVATIONS

- Looking for a new hobby
- Enjoy using fresh and healthy ingredients to cook
- Loves gardening or anything plant related
- Want to stay healthy and would do the work to keep themselves and their family healthy

PERSONAS

Jane, 27

Retail Manager

- Lives in New York, in a rented apartment
- Single and living alone
- On her off days, she would either hang out with friends or relax at home
- Enjoys gardening since young, however, unable to do so easily due to space constraints.
- Loves to travel
- Loves cooking at home

David, 45

Finance Director

- Lives just outside of the city, in a house with a yard
- Married with 2 kids
- Have a pet - cat/dog
- Enjoy decorating the yard with flowers and plants
- On his off days, he would be working on his yard
- Likes to cook

Kelly, 31

Yoga Instructor

- Lives in LA, in an apartment
- Co-living with her fiancé
- Vegetarian and enjoys cooking
- Health conscious and would always care for her fiancé's health
- Prefer to use and eat organic food
- On her off days she would be going on a hike or playing sports

BRAND PILLARS

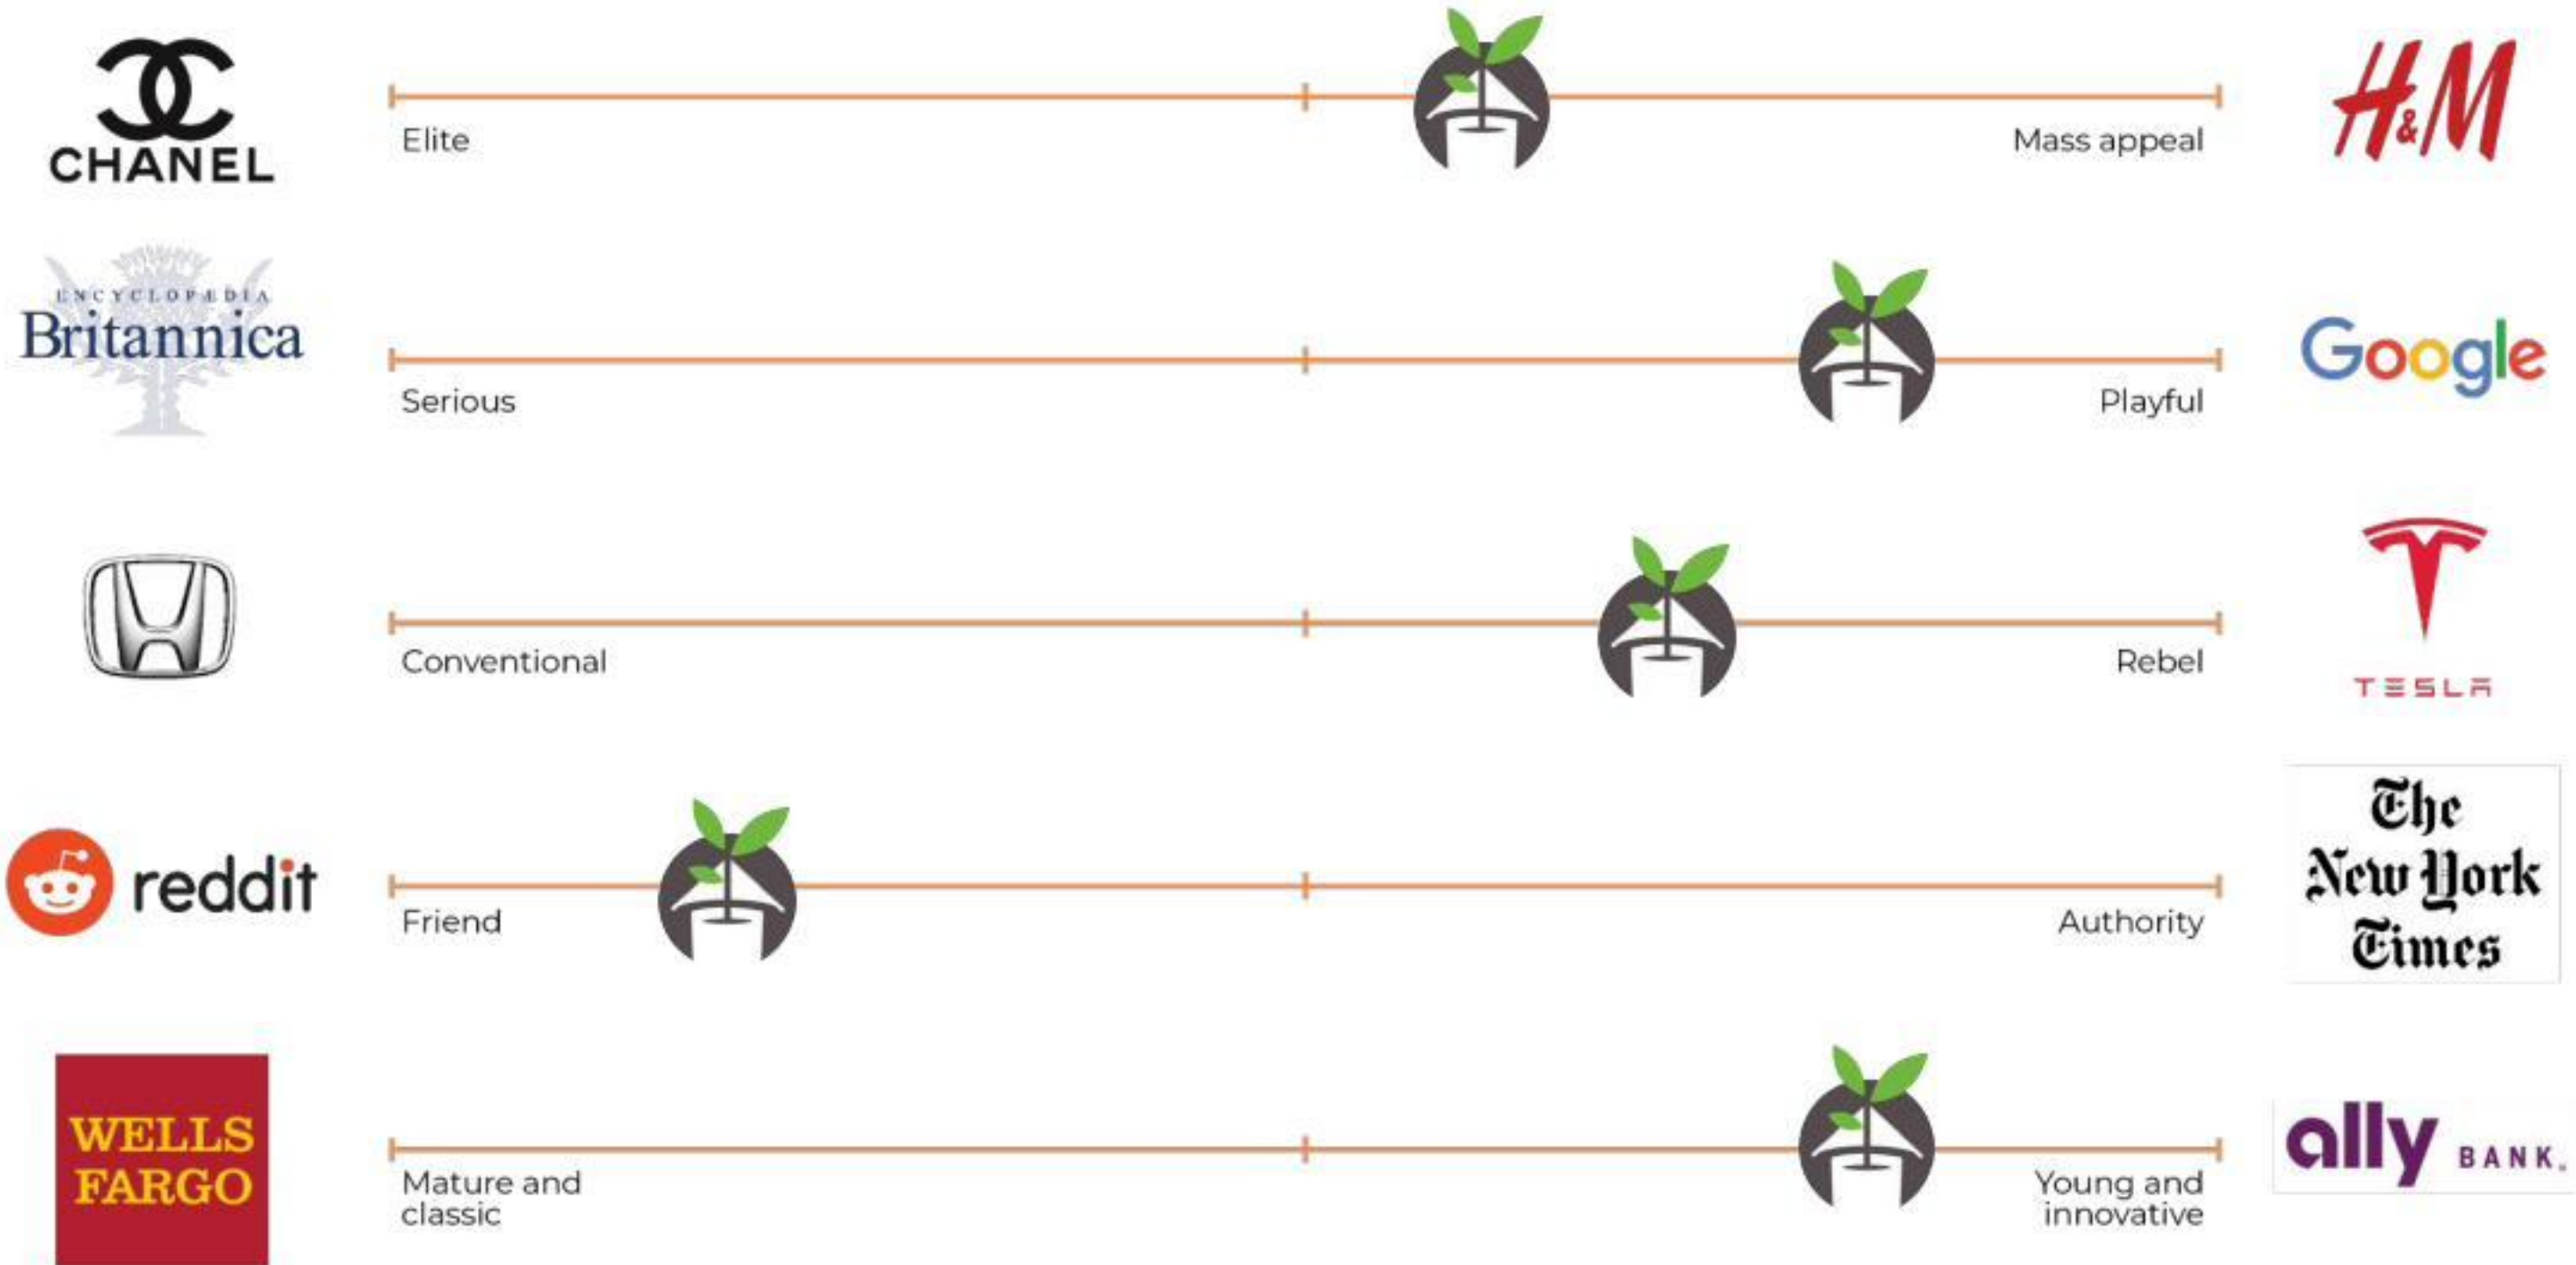

POSITIONING STATEMENT

Home Grown Garden brings gardening closer to you.

While other gardening companies are not helpful, sell very cheap and low-quality products, are generic and boring, uncreative and uninventive, HomeGrown Garden will bring in innovative products, has knowledgeable and professional customer service, and is a resource hub.

In this way, HomeGrown Garden gives hobbyists, seasoned gardeners, and amateurs a convenient way to access high-quality gardening products and resources.

Brand Personality Spectrum

BRAND OVERVIEW

PERSONALITY

- Innovative
- Friendly & Approachable
- Gardening Nerds
- Fun & Adventurous

- Loving and caring

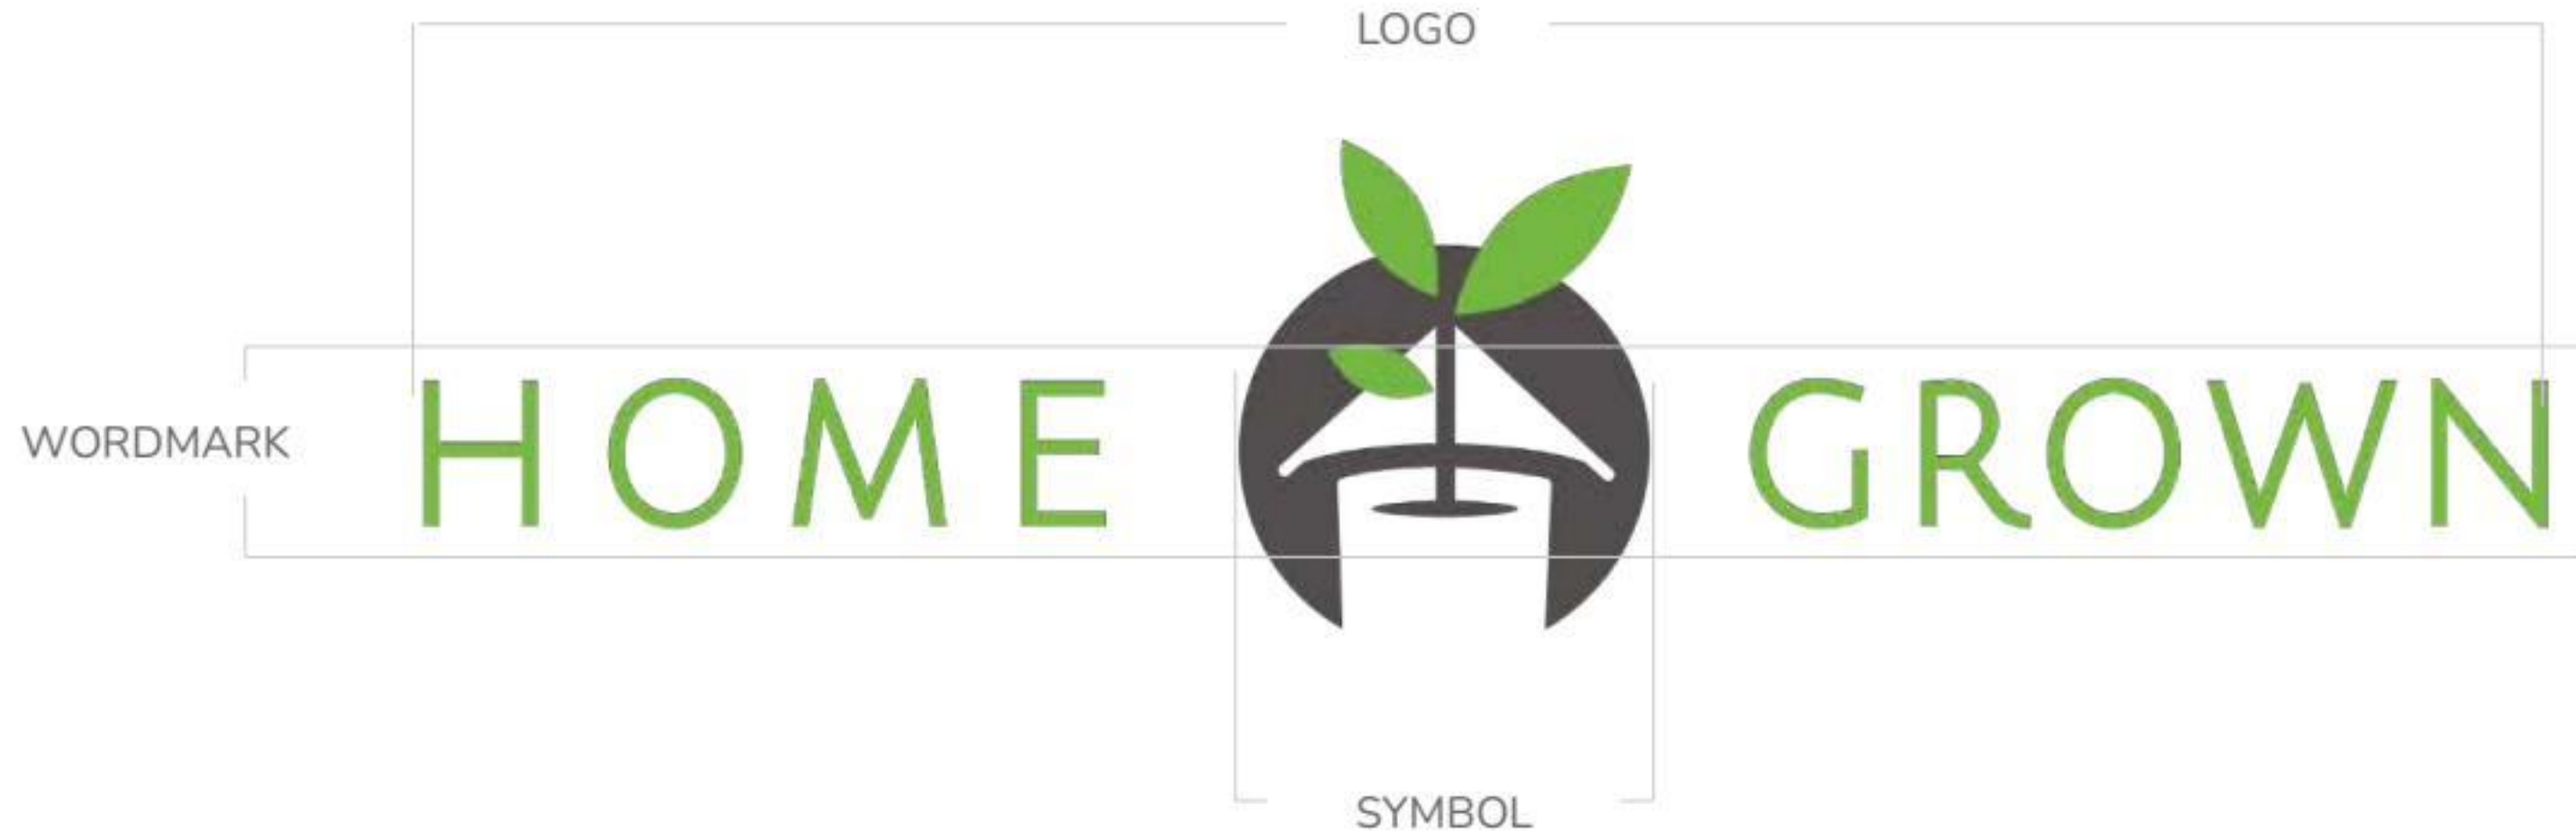

RELATIONSHIP

- Reliable and high-quality gardening product
- Unique experiences
- Be a resource
- Live sustainably
- Bring nature to you
- Bring abundance to your home
- Provide you with a source of healthy ingredients
- Making gardening accessible

HOME GROWN VISUAL IDENTITY

PRIMARY LOGO

The HOME GROWN logo is the primary element of our visual identity and should appear on all communications.

The logo is made up of two elements:

1. Symbol
2. Wordmark

Always ensure that the logo is reproduced at a legible size.

LOGO COLORS

Pantone 7737 C

CMYK C:60 / M:5 / Y:100 / K:0

RGB R:116 / G:182 / B:67

HEX #74b643ff

Pantone 411 C

CMYK C:61 / M:60 / Y:57 / K:36

RGB R:84 / G:77 / B:77

HEX #544d4d

The logo should always be reproduced in its original form — meaning no tints or shades may be derived from it, nor may multiply or overlay effects be applied to it.

When possible, it should be printed using the Pantone Matching System value. If spot colors are not available, only the CMYK (Cyan, Magenta, Yellow, Black) values listed on this page should be used.

The official colors to be used for reproducing the logo in Pantone, process (CMYK), RGB (Red, Green, Blue), and web-safe applications (HEX) are as shown.

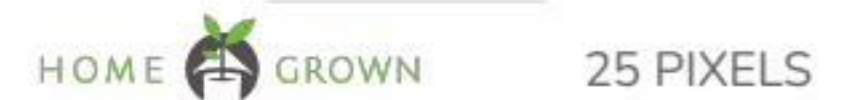

PRIMARY LOGO CLEAR SPACE & MINIMUM SIZE

The logo is always scaled as a unit.

The logo should never appear less than 1 inch in height on printed materials

The logo should never appear less than 25 pixels in height on digital materials

PROTECTED SPACE

There should be a minimum clear space around the logo in which no other elements (eg: graphics, illustrations, photos) can appear.

Note how the height of the “H” in the “HOME GROWN” wordmark is the unit of measurement that dictates the correct logo configuration and safe area. The same rules apply to the secondary logos.

MINIMUM SIZE

A minimum allowable size has been established to ensure legibility of the logo in which the height of the logo is no less than 1 inch.

PRIMARY LOGO COLOR OPTIONS

FULL-COLOR VERSION

The full-color logo is the preferred version and should be used whenever possible.

TWO-COLOR VERSION

A two-color version of the logo has been developed for occasions when the background is similar to the logo colors.

ONE-COLOR VERSION

The logo may be applied on any solid color, texture or photographic background that provides sufficient contrast.

BLACK VERSION

The black version is for use in black and white applications.

REVERSE VERSION

A reverse version for use on dark colored backgrounds has also been created. The logo may be printed on any solid color, texture or photographic background that provides sufficient contrast.

INCORRECT LOGO USAGE

Do not change the typeface in the logo.

Do not alter the colors of the crest or wordmark.

Do not screen or apply transparencies.

Do not stretch or compress the logo.

Do not alter or scale logo elements.

Do not reposition elements of the logo.

The HOME GROWN Logo must be accurately reproduced. All logos were created as single, unified graphics. Everything about them—their size, placement spacing, color and proportions—is intentional, and should be applied correctly in all instances.

Do not place the logo on top of busy images.

Do not tilt the orientation of the logo.

SECONDARY LOGO

HOME
GROWN

Full-color version

Two-color
versions

One-color
versions

Reverse version

The secondary (vertical) logo is to be used in special occasions when the use of the primary logo would be unsuitable. Whenever possible, the logo should appear in its full-color version. The correct usage guide for the primary logo applies to the secondary logos as well.

HOME GROWN ICON

Full-color version

Two-color
versions

One-color
versions

Reverse version

The HG icon may be used as graphic element in artworks and marketing materials.

This palette will serve as the foundational elements within your communications and promotional material. It is acceptable to use tints (shades) of the primary colors to add variety and visual interest to the materials.

These colors enable flexibility and variety in design while being consistent with the brand's feel. Variety also ensures that our materials are dynamic and up to date.

COLOR PAIRING TECHNIQUES - 2 COLORS

Picking two opposing, vibrant colors will create a powerful, high contrast and eye-catching effect. This can be great for small banner ads or communications that need an extra zing.

Combining a dark color with a light color also creates contrast. In this combo, we like how the flatness of both colors create a subtle and sophisticated feel.

Colors from the same hue can also work well to create a more subtle effect, that is perfect for brand building oriented communications.

COLOR PAIRING TECHNIQUES - 3 COLORS

Pairing two harmonious colors from the same hue with a bright contrasting pop color can create interest and focus for your communication.

Anchoring two vibrant, contrasting colors with a flat color is a great way to grab attention and mitigate the tiring nature of vibrant combos.

You can use three colors from the same hue for a subtle but complex effect.

COLOR PAIRING TECHNIQUES - GRADIENT

VIBRANT COLOR BLENDING

LIGHT AND DARK COLOR BLENDING

SIMILAR COLOR BLENDING

When creating gradients, follow the 2 color pairing rule. Gradients can be used as backgrounds, fills and tints for photographs.

Great brands use type effectively. Often seeing only the typography and brand elements is enough to successfully identify the organization or product being promoted. By being consistent with the typefaces, we communicate our brand more effectively and help it stand out in a competitive marketplace.

Always have consistent letter spacing (the space between the letters) when setting headlines, subheads or body copy. Lower case letters, with their ascenders and descenders, make it easy for the eye to process word formations.

Reserve capital letters for headlines if necessary - certainly never use in body copy. Always use unjustified text (ranged left)

Kid's Flower Kit

The background of the entire page is a close-up photograph of several sunflowers. The sunflowers have dark brown, almost black, centers and petals that are a mix of yellow and brown, suggesting they are mature. The leaves are green and serrated. The lighting is soft, creating a warm and natural feel.

HOME GROWN IMAGERY

PHOTOGRAPHY

Product photos on white background are used to give focus to the product and its features. These are used mainly for listing images and in product catalogs.

PHOTOGRAPHY

IT'S FUN

From being able to break a sweat outdoor to boosting your mood on a stressful day, gardening offers a lot of benefits. The **gardening experience** photos show how fun, easy and healthy it is.

PHOTOGRAPHY

It feels good to look at how beautiful the flowers you grow yourself, or how fresh the greens you have on your kitchen table, or see some beautiful butterflies, birds and bees as they pollinate the plants. **Harvest / Bloom photos** showcase that every bit of effort you give to your plants will be worth it!

LISTING IMAGES

Main

Sizes needed:

1. 1500x1800 (Amazon)
2. 2000x2000 (Other marketplaces)

Background: White

Possible options (Create 3 - 4 options):

1. Mylars with plants and seeds
2. Mylar with plants and inclusions
3. Mylars, envelopes and other inclusions

Adjust positioning of packaging and other inclusions to present other options.

DOs:

1. Occupy all of white space
2. Tilt text object (e.g. envelope) to avoid amazon ping
3. All objects need to be in the frame (including shadows)
4. Use the packaging to highlight the features since texts are not allowed (e.g. putting a USA badge sticker)
5. Alter the packaging (if necessary) to make the texts more readable and objects more visible

Listing Images - Supporting

The supporting listing images show the varieties, inclusions, features and product benefits.

Size: 2000x2000

Font

1. Title: Brandon Grotesque 105pt (minimum)
2. Body: Myriad Pro 70pt (minimum)

Safe zone:

1. 100 px all sides (full color)
2. 10 px (white BG)

Copy: 10 - 15 word count (ideal)

Harvesting made sow easy

Our spring vegetable seeds are good for **companion planting**, which lets them benefit from a fellow seed's ability to control pests, enhance soil nutrients, plus more.

EBC/A+ CONTENTS

In creating the EBC, it is recommended to have various executions for every module to make each one visually interesting. In the first example given (HG4K), the module 1 has a full color photo background. This is followed by a module with white background to present a cleaner, lighter execution. The module 3 contains dark, heavy imagery and module 4 has lighter photos with white spaces around each image.

It is also important that the information presented in the EBC modules are either new information (not presented in listing images) or has added details. Further, do not reuse lifestyle photos from the listing images.

Your EBC Title

The module 1(Standard Image Header with Text / 970 x 600px) will serve as the EBC title.

Thus, this module must have the following:

1. Home Grown Logo (at least 350 px width)
2. Product photo
3. Catchy tag line

EBC: Standard Picture with Description

This is the most used module for Home Grown EBCs.

Size: 970 x 600px

Font

1. Title: Brandon Grotesque 70pt (minimum)
2. Body: Myriad Pro 35pt (minimum)

Safe zone:

1. 50 px all sides (full color))
2. 5 px (white BG)

Description: (Copy) 30 word count maximum.

Grow your own superfood!

Cold hardy, easy to grow, and keeps on giving - growing our 4 kale seeds is a delightful task. Enjoy whipping up healthy recipes with your homegrown kale!

EBC: Standard 3 Images with Description

This module presents three points though three images. It should be designed with a common theme / element. In the first example, all three photos are set in a garden and all has hands working on each of the product feature. On the second example, all are flat lay photos with the same rustic wooden background creating an illusion of one continuous image.

Size: 300 x 300px

Font: (Title)Brandon Grotesque 34 pt (minimum)

Safe zone:

- 1. 10 px all sides (full color))
- 2. 5 px (white BG)

Description: (Copy) 25 word count maximum. 2- 3 keywords may be set to bold for emphasis.

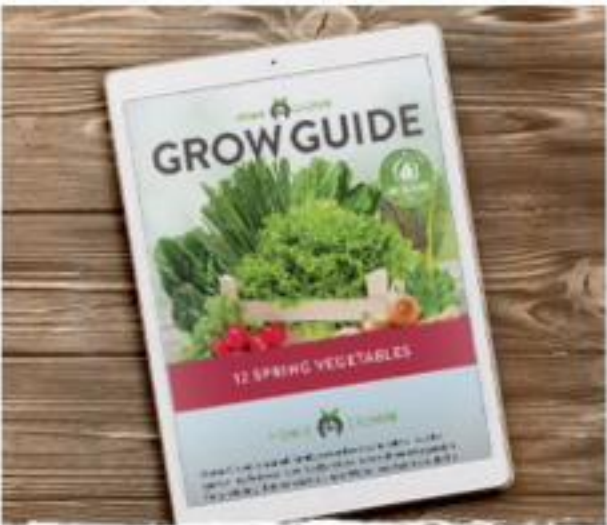

Use Now or Set Aside
Our resealable mylar packaging allows you to plant now and keep seeds fresh for **planting the next season.**

Sow to Harvest, Guided
All you need to know about planting our 4 kale varieties are in our detailed but easy to understand **digital grow guide.**

Germination Guaranteed
Under the right conditions, our seeds are guaranteed to germinate **85% to 90%.**

DIY w/ Digital Grow Guides

Our digital **Grow Guides** come with easy-to-follow instructions perfect for beginners. Also included are planting tips and the latest seed info you need.

Be Organized

Organize your seeds with our **plant markers**. Know which is which and track other important info for your harvest.

Save Seeds for Later Use

Seeds come in **resealable mylar packs** for easy storage. This also allows for long term use, keeping them fresh until the next planting session.

EBC: Comparative Module

The comparative module is a cross-selling tool that presents the different features/benefits of products related to the EBC's product. The format is set by Amazon and only the product photos needed to be designed.
